## TEMPORARY SIGNS YARD SALE ZONING ORDINANCE 3638 ARTICLE 15

Three (3) yard sale signs are allowed as “temporary signs”. These signs can be up to six (6) square feet (example: 2 feet X 3 feet) per sign face with a maximum height of four (4) feet off the ground.

No sign shall be attached to any City owned property including, but not limited to, utility poles, street or stop sign poles.

Signs may be located within the property of the yard sale use only; no off premise signs are allowed and any such signs are subject for removal and discarded.

No signs shall be placed in the public “right of way”. This includes the area from the pavement edge to a minimum of one (1) foot behind telephone/utility poles or any visible and obvious utility equipment or structures such as fire hydrants, etc. This can be used as a reference point to keep the sign out of the City right of way.

Please write your permit number somewhere at the top of the sign so that City staff will know a permit has been issued.

Thank you for helping keep Columbia beautiful.
